

Circular No.: NeSL/DDE/2024/0148

Date: 14th June 2024

Biometric Digital e-signing - Phase out of existing L0 Registered Devices from Aadhaar authentication ecosystem

We invite the attention of NeSL IU & DDE registered users to take note of UIDAI circular - Phase out of existing L0 Registered Devices from Aadhaar authentication ecosystem dated 07-06-2024.

As per the circular shared by UIDAI regarding the Biometric based Aadhaar Digital Signature, phase out of L0 Biometric device will be done by June 30, 2024.

No L0 RD Biometric device will be allowed for Digital Signature post June 30, 2024 and all transactions received using L0 RDs will be rejected.

In this regard, we request you to plan accordingly and make sure that L0 RD devices will not be used for Aadhaar based Digital Signature process post June 30, 2024.

Your feedback is important to us and we welcome any suggestions to improve our services on a continuous basis. Please write to us at suggestions@nesl.co.in with your suggestions, if any.
