|-------|---|---|
| Notes | 1 | Descriptions / Clarifications DEBTOR CATEGORY a. "Company" - where legal constitution of debtor is Company or LLP registered with MCA. b. "Other Commercial Entities" - where legal constitution of debtor is other than Company, LLP or Individual. c. "Individual" - where debtor is an Individual. |
| | 2 | Count of debtors displays unique debtors for each row. The slabs do not add up to the totals since same debtor may be counted in multiple slabs |
| | 3 | Debt refers to each record of information reported in Form C to NeSL, identified by a unique debt reference number (e.g. loan account number). |
| | 4 | Default is marked in NeSL records only for those debts where creditor has reported default explicitly in the relevant section of Form C. It excludes those debts where overdue positions exist but the creditor has chosen not to mark as default. |
| | 5 | Total outstanding amount of all debts, including both standard debts and defaulted debts. |
| | 6 | Percentage values for default are out of total outstanding amount of all debts (standard debts + defaulted debts). |
| | 7 | Ratio for individual segment may not be representative of the entire universe as information in respect of individual loans has not been submitted by all banks. |
