NOTES		
	1	Debt refers to each record of information reported in Form C to NeSL, identified by a debt reference number (e.g. loan account number).
	2	Percentage values for default are out of total values for all debts (standard+default) in the the respective category shown in table
	3	Default is marked in NeSL records for only those debts where creditor has reported default explicitly in relevant section of Form C. It excludes those debts where overdue position exists but the creditor has chosen not to mark as default
	4	In the above report, data submitted by debenture trustees has been excluded.
