Notes:

- Analysis of the industry-wise distribution is done on the basis of industry categorisation available in MCA 21a (https://www.mca.gov.in/MCA21/loc/setting/MCA_2006_detail_01jan2009.pdf) and the Primary Industry Code available in Corporate Identification Number (CIN) of the Corporate Debtor.
- Debt records where CIN isn't available in MCA 21a data mapping are identified as "uncategorised" state.
- Data represents records pertaining to debtor category only as "Corporate" i.e. where legal constitution of debtor is a Corporate or LLP registered with MCA and/or where debtor name indicates the entity pertains to Corporate category
- Data includes all types of debts i.e Financial debts and Operational debts: Standard debts and Defaulted debts.
- Debtor refers to the count of unique debtors (CIN/PAN) being identified for the particular slab. There could be same Debtor having multiple debts being identified in multiple slabs.
- Debt refers to each record of information reported in terms of INRs, identified by a unique debt reference number (e.g. loan account number)
- * Total of debtor count would not be actual sum, as there may exist overlap of data in other categories
