

Circular No.: NeSL/DDE/2026/0227

Date: 20th January 2026

Change in Aadhaar e-Signing URL for NeSL DDE Workflow

Kind Attention: Clients using Aadhaar-based e-Signing

As part of the service enhancement, the Aadhaar e-Signing URL currently used in the NeSL DDE workflow is being updated.

The existing URL: <https://esign.neilindia.co.in/eSignAspServiceV21/SignService>

With effect from **11:00 PM on January 22nd, 2026**, the following URLs will be operational:

- **DC:** <https://authsign1.nesl.co.in/eSignAspServiceV21/SignService>
- **DR:** <https://authsign2.nesl.co.in/eSignAspServiceV21/SignService>

We request you to get the new URL whitelisted within the mentioned timeline. This is mainly applicable for such clients who are using NeSL's Aadhaar based e-Signing from the Lender's application network.

Please note: There is no URL change to be made w.r.t. the DDE API endpoint URL in this regard.

Your feedback is important to us and we welcome any suggestions to improve our services on a continuous basis. Please write to us at ddesupport@nesl.co.in with your suggestions, if any.
