

30 DIGITAL e-STAMPING STATES

FAQ's

1. In DDE, which modes of e-sign are available?

Currently, four modes are available for e-signing: Aadhaar-based OTP, biometric, face authentication, and DSC dongle-based e-sign.

2. Can non-loan documents execution be permitted on the DDE platform?

Yes. NeSL's DDE platform can be used to execute non-loan / non-debt documents, provided the document is not compulsorily registrable under the Registration Act, 1908. Accordingly, this makes the DDE platform suitable for executing consent letters, declarations, undertakings, and similar non-debt documents digitally.

3. How is DDE executed by the customer?

The DDE execution link will be sent to the customer on both their registered email ID and mobile number (via SMS). The customer may use either of the links (email or SMS), as per their convenience, to access the platform and proceed with the e-signing of the document.

4. How much time does it take to generate an e-Stamp certificate on the NeSL DDE platform?

It is a real-time, online, paperless e-Stamp certificate available 24/7 on the NeSL DDE platform.

5. Is NeSL DDE platform available 24/7?

Yes, 34% of the DDE transactions are executed during non-business hours & holidays
